

NSA Launch Tracker: First 90 Days as a Signing Agent

BUSINESS SETUP CHECKLIST, SIGNING LOG, MILEAGE TRACKER & 90-DAY P&L FOR NEW MOBILE NOTARIES

Business Setup Checklist

Complete these in order. Missing any single item can delay your first booking or kill a signing at the table. Check off each as completed and note the date.

- ☐ Pass Notary Public exam for your state
- ☐ Submit notary commission application and fee to Secretary of State
- ☐ Purchase notary stamp (round or rectangular per state law) and embosser
- ☐ Purchase a bound notary journal — required in most states and essential for liability
- ☐ Obtain E&O insurance: \$25K minimum; \$100K strongly recommended by title companies
- ☐ Complete NNA Certified Signing Agent (CSA) exam (nnanotary.org)
- ☐ Complete NNA background screening — required by most title companies before they will assign you
- ☐ Create profile on Snapdocs, SigningOrder, and Notary Café
- ☐ Create listing on [123notary](http://123notary.com) and SigningAgents.com

- ☐ Set up a mileage tracking app (MileIQ, Stride, or Everlance)
- ☐ Order a laser printer — minimum 1200 DPI; loan packages require crisp text
- ☐ Run a 150-page test print to confirm printer handles bulk without jamming
- ☐ Set your signing fee schedule: base fee + per-page fax-back/scan-back rate
- ☐ Cold-contact at least 10 local title companies and escrow offices with your credentials
